RE : Kathy Colon

TO WHOM IT MAY CONCERN :

I have been requested to provide a character reference inclusive of a professional reference for Kathy Colon whom I have known for many years. It is not my practice to provide such references. Traditionally, I politely decline such requests for employment or academic applicants, as well. I believe that this letter is only the fourth of its' kind in almost a dozen years.

But Kathy Colon, and her sister Karen, are such exemplary members of my District and my County. Her knowledge in the field of information technology and her vision in artistry especially graphic design produce this exception. Beyond that observation, she possess both insight and awareness of project specifics with little explanation. Her general attitude has always been positive and upbeat and she appears to possess indefatigable energy. My affiliation with various members of her family extends over many years and, to a person, they are exemplary; courteous, industrious, genteel.

Accordingly, I add my attestation to her character and genuine expression of support to her progress.

If I might further clarify my enthusiasm for Ms. Kathy Colon, please do not hesitate to contact me.

Thank you.

Sincerely,

**David Haley; State Senator
Wyandotte County - KANSAS**
