CHIEF EXECUTIVE OFFICER

June 21, 2000

To Whom It May Concern:

Ms. Kathy Colon came to the attention of our agency about three years ago when we were interested in creating a Web page for a new social service program we were beginning. Ms. Colon was professional, creative, and innovative as she explained the techniques and process of a medium that was relatively new to our organization. Because of her professionalism in terms of punctuality, innovation, and meeting time lines, she was commissioned for other projects.

Ms. Colon is a team player sharing her insights, listening to others, and an asset to an organization.

For any of our major public relations projects, Ms. Colon becomes a part of our development team.

Community Development Corporation of Kansas City strongly recommends her for most tasks in technology.

Respectfully,

Karen Curls, Director  
Social Service Programs  
And Community Planning
